

Letter from VP Curtis A. Reynolds

Hi Business Affairs,
I am excited about what is to come this spring. We are launching the Elite Gator award program, where employees will be nominated throughout the year for each month to represent what we consider an Elite Gator. An Elite Gator are individuals with exemplary services, safety and sustainability initiatives throughout their work unit or areas. I want to encourage you to apply and become an Elite Gator through the Business Affairs website. I would also like to congratulate the Superior Accomplishment Award winners within Business Affairs. Thank you so much for your hard work and service throughout the year and recognition as superior employees. I would also like to congratulate the employees of the month. For December, it was Oscar Bergeron-Oakes. For January, it was Hannah Ulloa. For February, it was Officers Dianna Ullery and Susan Pratt. Thank you all so much for your exemplary service to Business Affairs and to the University of Florida. Did you know that Business Affairs manages the Pepsi Company contract on the University campus? In the newsletter we will have fun facts about Pepsi. Make sure you email AnaLee what that fun fact is and you will be in the running to win a signed basketball by Coach Mike White. If you are one of the first 50 people to email AnaLee regarding the fun fact you will also win a prize. So continue to read, continue to keep up in service, sustainability and safety and go gators!
Sincerely,

Curtis A. Reynolds

NEW ELITE GATOR AWARDS

The Elite Gator Award is a new initiative where Business Affairs will recognize employees every month. Leadership is also eligible to win an Elite Gator Award. To be nominated or to apply, visit the Business Affairs website and click on the resources tab. You will see the application/nomination form. Elite Gators are chosen based on their interaction with service, safety and sustainability. Apply or nominate someone today!

Employee of the Month

Congratulations to the December, January and February Employees of the Month!

Garage 14 Now Open!

I would like to mention to you that we have opened Garage 14! Garage 14 has more than 2,000 spaces, 22 electric vehicle slots for you to park and charge your electric vehicle at no cost to you. The garage also exemplifies a unique source of technology, allowing you to understand when spaces are available or occupied on each of the floors.

Business Services' new year resolution is to create a more sustainable environment for the enjoyment of the University of Florida community. With this in mind, Business Services is partnering with UF Planning Design and Construction (PDC) to create a new framework for future dining construction projects on campus to implement sustainable practices set forth by the LEED certification standards.
